Re: October Club Report

General:

This past month, we made a change in management which was initiated by the club due to matters which will remain private. We have installed a temporary management team of Kevin Scriven, Dayrll Phillips, Jeff Bookman and Elliott Hunt.

Already, the management team has galvanized the playing squad and improved moral. Additionally, we are bringing in a new secretary and have appointed a media director within the past week.

First Team:

Since the change in management, we have played two games resulting in a loss away to Blackfield & Langley, and a great point away from home last night against 2nd in the league Fareham Town FC.

Alresford Town Youth Football Club:

We brought in Jeff Bookman last month who ran the half term camp in partnership with ATYFC. Jeff is the former head of international development with Chelsea F.C. and is recognized as one of the leading youth coaches in the country and a founding coach at the David Beckham Academy in London. Jeff was assisted by coaches from Reading FC, Southampton WFC and Barnet FC.

COVID-19:

Per the Prime Minister's announcement this past weekend, last night's game is the last one until December 5th as we suspend all play due to lockdown protocols. To date, there has been no reported transmission of COVID-19 at any ATFC event.
