QUOTATION

Dear Julie

Re: Bargeboard Repair at The Town Office, Alresford

Thank you for your recent enquiry. We have pleasure in submitting a quotation for the works required as discussed at our recent site visit at the above property.

To supply all access equipment
To supply and fit new treated timber to the nearest colour match to the barge box end.
To clear site.

For the sum of £185.00 + VAT

While on site we noted delamination of the undercloak used beneath the roof tiles; depending on the age of the property this undercloak may contain some asbestos content; we would advise this is tested and replaced as necessary.

Terms: Prompt payment on receipt of invoice

Please note that we cannot be held responsible for any minor damage to internal decorations whilst working on the roof, eg hair-line plaster cracks to ceilings, due to vibration.

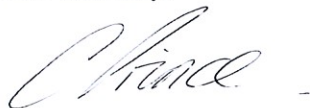

We have made no allowance for any unseen work (eg rotten timbers). Unless otherwise stated, our quotation does not include for lead work, timber work, insulation, guttering work or the provision of roof ventilation.

We are aware that you came to us through our advertising, therefore if you would like to see examples of our workmanship or take up any references, please do not hesitate to contact us.

Please find enclosed an Acceptance of Quotation form which I would be grateful if you would complete and return to me should you wish to proceed. We draw your attention to our Company Terms and Conditions, which are also attached.

We hope our quotation is of interest to you. Should you require any further assistance, please contact me at the above office. We look forward to receiving your further instructions.

Yours sincerely,

Chris Prince
